Crash Narrative:

On 10/19/21 at 08:30 hours, Sgt. Wade notified me that he received an email regarding a motor vehicle accident involving a pedestrian/student that occurred on 10/15/21 between the hours of 08:20am and 08:35am. The crash was never reported by the operator of the vehicle or the student/pedestrian. Approximately two hours later, the student went to the nurse's office seeking assistance for neck pain which is how the school became aware. This crash occurred in the marked crosswalk on Brandeis Road in front of Newton South High School which is located at 139 Brandeis Road. The weather at the time was 63 degrees with mostly cloudy and sunny conditions (wunderground.com). Brandeis Road is a two way roadway divided by an unprotected median that runs east and westbound. In front of the school there is a marked crosswalk in the roadway. There is also a one way driveway near the main entrance of the school with parking stalls and parents can

Crash Narrative:

drop their children off there on the right side of the driveway. The driveway then leads back out to Brandeis Road. Right after you exit the lot there is the above mentioned crosswalk to the left of the driveway which is very visible with nothing obstructing your view.

On arrival, I spoke to the Dean of the school named Charlie Myette. Mr. Myette brought me to his office and started looking at the school's video surveillance system. He also requested that the student/pedestrian involved to report to his office. The student was identified as Tsukasa Iinishi. I asked Mr. Iinishi what had occurred and he stated that he was walking to school on the morning of 10/15/21. He says that he was wearing a pink hoody sweatshirt with gray shorts. He was walking through the woods which is across the street from the school which exit out to Brandeis Road. He says that he waited at the crosswalk and let two

Crash Narrative:

also overlooks out in to Brandeis Road. The view of the road is partially blocked from the parked cars in the lot. The video shows a red colored Toyota Prius pull in to the driveway of the school. An Asian female student wearing a white long sleeve shirt with green lettering and dark colored jeans exits the passenger front of the Prius and eventually enters the school. The Prius then pulls out and goes toward the left side of the driveway around other vehicles waiting to exit. At 08:27 hours, the Prius pulls out angling towards the left side of the driveway going around other vehicles waiting to exit. The Prius then exits the lot on the left side (wrong side) of the roadway and makes contact with the pedestrian. In the video you cannot see the front hood area of the car, but you see Iinishi's torso bend towards the vehicle on impact. It shows the Prius stopped there for approximately ten seconds and then it drives away. In the video you

Crash Narrative:

Eventually, I observed the Prius pull in to the drop off driveway of the school and drop an Asian female student off. I identified her as the same student that got out of Prius prior to the past accident on 10/15/21. The operator was an Asian female which appeared to be in her late forties. After, the Prius exits the lot on to Brandeis Road and I flagged her down. I had her pull in to the parking lot across the street from the school. I asked her if she was involved in a accident with a student on the morning of 10/15/21 to which she replied that she was. She was identified as Xiaojin Liu through her MA Driver's License # S49033927. She was operating a 2010 Toyota Prius bearing MA reg.# 8JY630. I asked her what occurred and she stated that she was exiting the driveway of the school to turn left on to Brandeis Road. She says that she has a habit to think that no one is ever walking through the crosswalk and thought it was clear to proceed.
